

Getting Started with Google Classroom

video tutorial: <http://tiny.cc/f7qdmz>

1. Sign in to your Google Account

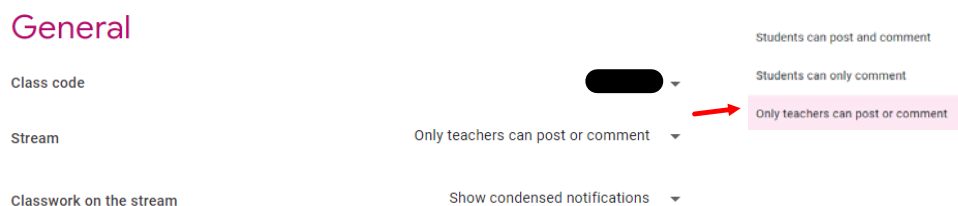

2. Open a new tab and go to 9-dot waffle

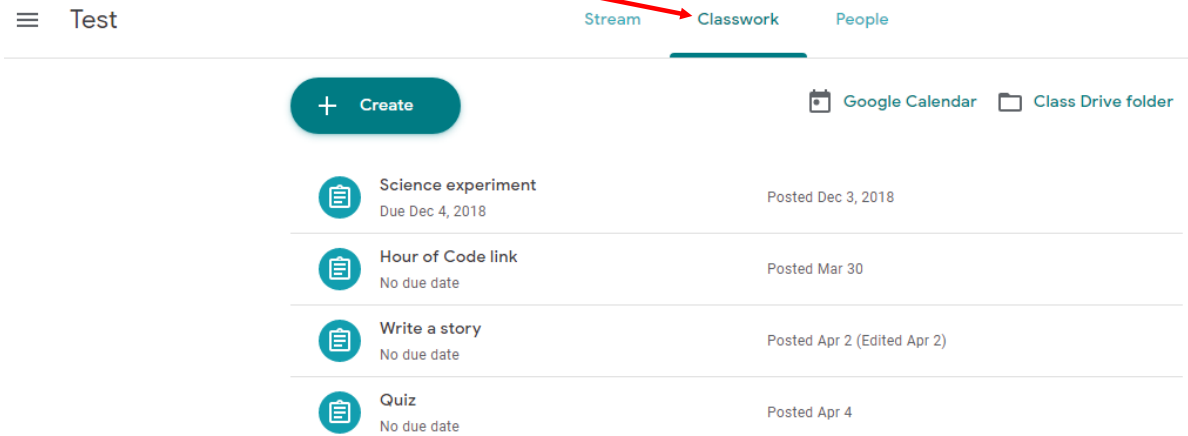

3. Go through steps to activate account (I am a Teacher, etc.) & click on + to create new class.

4. Go to Settings wheel (⚙) to find the **class code** and in "General Settings", decide how much access students should have to comment

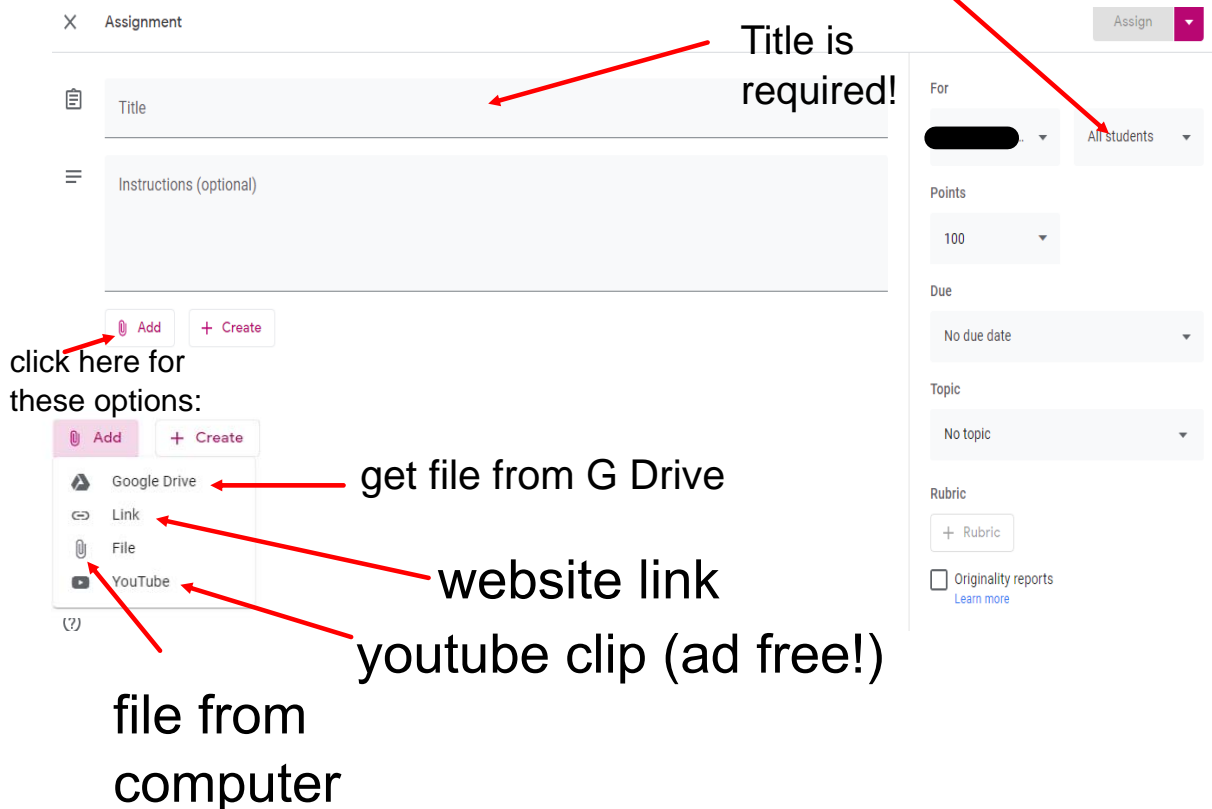

How to create a post (G Classroom)

1. Go to classwork

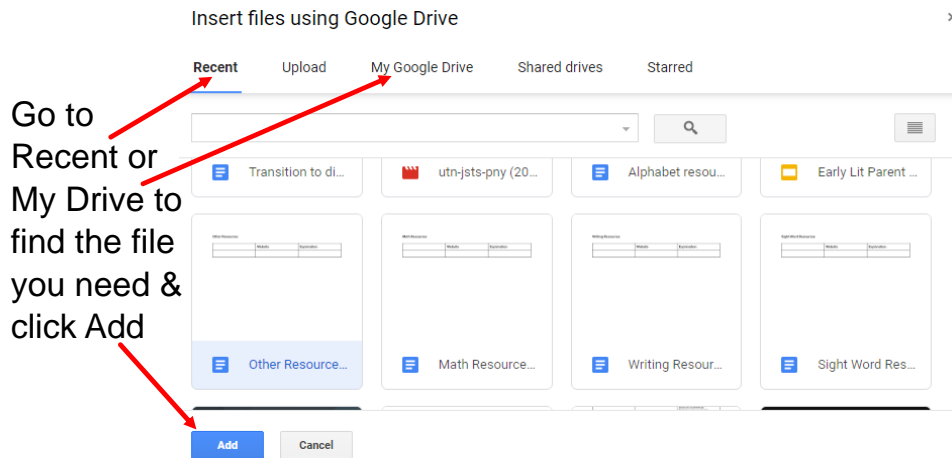

2. Create an assignment ()

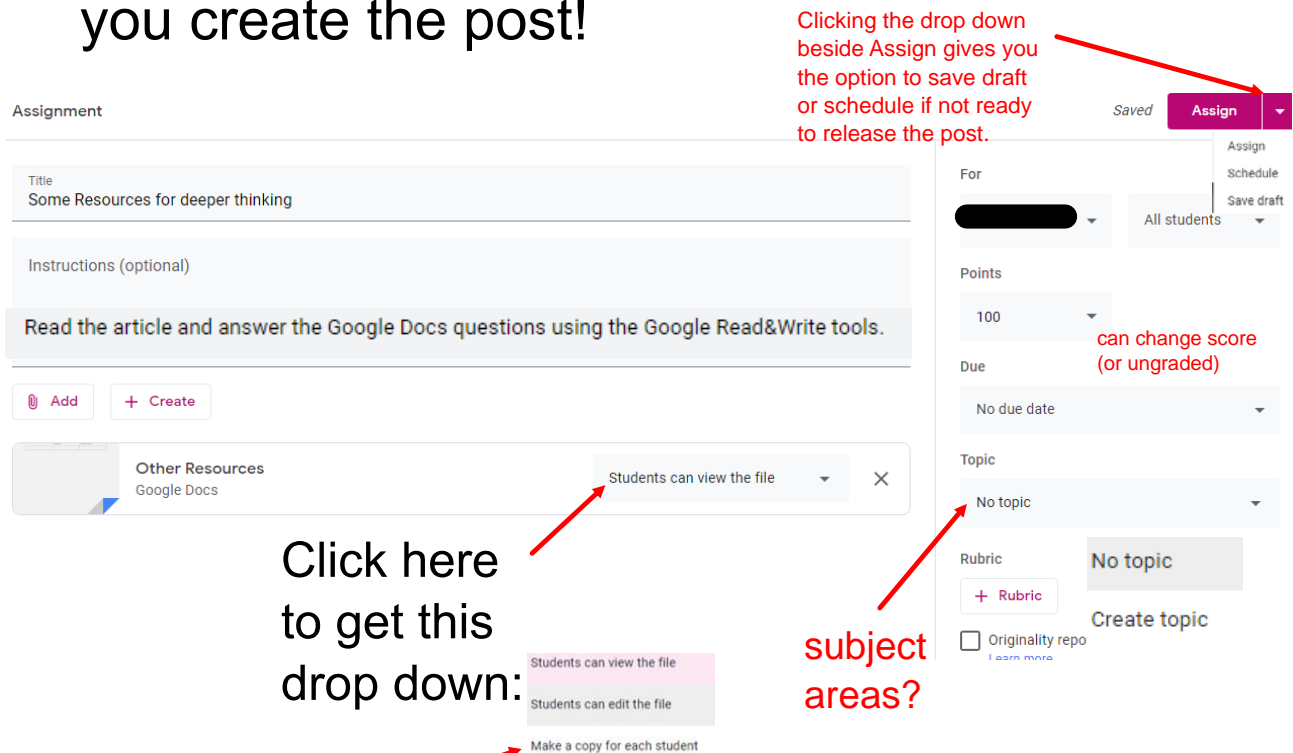

You can select some or all students

3. Options for G Drive files.

4. Note that "attach a copy for each student" is only available the first time that you create the post!

Best choice if you want individual digital copies that the students can submit.
