

GroupWise automatic sign-in

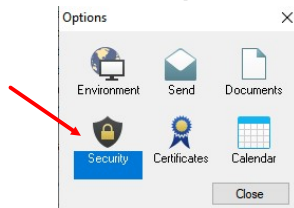

These instructions will explain how to open GroupWise without needing a password when logged into an SD28 computer or laptop.

1. Open GroupWise (Ctrl Alt G)

2. From the "Tools" menu, select "Options"

3. Double click on "Security" to open a pop-up to authenticate password-free sign-in.

4. Type in your password for GroupWise in "Old password." Don't type any information into "New password" or "Confirm new password." Check the box "No password required with eDirectory." Click Apply and OK.
